

A NEW MODALITY FOR THE MAINTENANCE OF HEALTH

# TRANSDERMAL MAGNESIUM THERAPY

"Dr. Mark Sircus is one of the best health writer researchers living! He is truly amazing and I want to help him spread his powerful and useful medical information."

Dr. Garry Gordon

Dr. Mark Sircus, Ac., OMD, DM (P)

MEDICINE

This second edition of *Transdermal Magnesium Therapy* offers a full medical review of how magnesium affects cancer, the heart, diabetes, the emotions, inflammation, surgery, autism, transdermal medicine, and so much more.

Magnesium is nothing short of a miracle; it has the potential to save you from considerable suffering and pain. The information presented here could even save your life. Magnesium is the lamp of life and one of the most important keys to overall health. When applied in the correct way, magnesium offers us a return to strength and vigor. When used in the emergency room, magnesium can save the day for both heart and stroke patients. What you will be introduced to is magnesium oil, a natural concentrated form of magnesium chloride that can be applied directly to the skin for intense effect.

When we are deficient in magnesium, over three hundred enzymes in our body are unable to function properly.

Magnesium deficiency has been scientifically identified as a critical factor in the onset of a wide variety of diseases. For various reasons and to varying degree, two-thirds or more of the population is magnesium deficient.

Learn how to use this powerful secret to good health in *Transdermal Magnesium Therapy*.

**Dr. Mark Sircus** holds the honorary title of doctor of Oriental medicine. Following thirty years of clinical experience and the development of a course of natural allopathic medicine, he has retired from clinical practice and now lives in Brazil with his wife and children.
